

Dear Team

I am applying for the Head of Space Planning and Visual Merchandising role within the Emerging Markets team at adidas.

My background is in visual merchandising leadership and retail operations across a multi-door network in the United States. At Brunello Cucinelli I managed VM strategy, space planning, store openings, brand standards, and VM upskilling across 13 retail boutiques and 25 wholesale accounts on the West Coast. I partnered directly with global VM and retail design teams to translate seasonal creative direction into compelling consumer experiences at market level. At Suitsupply I held the Regional VM Manager role across 6 West Coast stores, delivering floor planning, product presentation, and team training across the network.

I understand what it takes to execute VM strategy at scale across diverse retail environments, hold brand standards across third-party wholesale doors, and build the capability of store teams to deliver consistently. The EM scope of this role, spanning 127 countries and a store fleet that is actively growing and renewing, is exactly the kind of challenge I want to be part of.

I am a South African citizen based in Cape Town, which positions me well for the EM regional remit and the cross-HUB team structure across Cape Town, Delhi, Dubai, and Singapore. I am immediately available and open to the travel requirements of the role.
